Potential risks. To be explained <u>before</u> obtaining consent

x None, or minimal discomfort only

All exercise carries risk of cardio vascular accident in those who are susceptible. The participants will complete a standard pre-test questionnaire prior to participation, and anyone with a history of cardiovascular disease will not undertake this procedure. Additionally, all labs and all PESS research would utilise an informed consent document prior to participation, which would explain the risks to the participant.

Accidents on rowing ergometers are very rare and the test protocol will be explained in detail to the participants prior to the test.

It should be noted that in teaching labs, ergometer rowing is currently undertaken by students of Sport and Exercise Sciences and PE, who are usually exercise tolerant. In PESS research all participants would be healthy adults.

Action to be taken in the event of a foreseeable emergency

The procedure will be terminated if the volunteer shows any sign of distress.

Standard first aid procedures may be required depending on the severity of the situation. The following standard procedure should be followed in the event of an incident occurring in the PESS building / UL Facility:

- 1. Stop the procedure. Position the subject to prevent self-injury.
- 2. If appropriate, raise the subject's lower limbs to improve blood flow. Should the subject fail to respond summon help immediately.
- 3. Check vital signs airways, breathing and circulation (ABC)
- 4. If required attempt CPR as soon as possible.

5

- 5. Requesting Help: Emergency Contact telephone numbers are listed on laboratory door:
 - During normal working hours 9am-5pm, use lab phone to contact the Student Health Centre on 061-202534
 - Outside of normal working hours, or if the Student Health Centre number is engaged/busy, use the laboratory phone to dial 3333 for UL security personnel who will then contact the ambulance service. Contact one of the PESS First Aiders names are listed on the PESS laboratory door.
- 6. When contacting the above clearly state: Location, Building, Room Number, Nature of Incident/Accident and provide a contact number.
- 7. Complete the UL 'Accident & Emergency' form (completed by the investigator, not the volunteer). Forms available on UL HR website: https://www.ul.ie/hr/hr-policies-procedures-and-forms-z

6	Level of superv	ision required for procedure						
	X	PESS lecturing, research staff and teaching assistants						
0.0	Others place energify	PESS postgraduate researcher						
	Others, please specify	Trained PESS postgraduate students
