Anatomy e-Learning Resources	

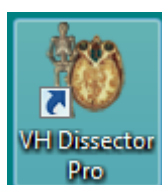

Anatomy E-Learning Resources

The following instructions detail how to access the anatomy e-learning resources:

VH Dissector Pro is available on the PCs in the Anatomy PC lab, GEMS2-029 and on 14 PCs in the PC lab GEMS1-023 (these PCs are labelled to indicate that they have this software installed). These labs are open during building opening hours, i.e. 08.00-22.00 Monday to Friday and 09.00-18.00 Saturday and Sunday.

A website has also been established for student purchases of VH Dissector (based on a 2-year subscription). Click [here](#) for more details.

Acland's Video Atlas of Human Anatomy is available from any networked PC on campus. This will appear as an icon on the desktop once you log in using your UL ID number and password.

A web-based, updated version of **Acland's Video Atlas of Human Anatomy** is available via a link on the [Clinical and Anatomical Skills](#) site of the GEMS Website. To access this from off campus, put UL\ before your username when logging in.

Embryonic Disk is available on the PCs in the Anatomy PC lab, GEMS2-029 and on the PCs in the PC labs GEMS1-023 and GEMS1-024.

Embryonic Disk
2.3

4D Anatomy is available via a link on the [Clinical and Anatomical Skills](#) site of the GEMS Website. This is available from all the PCs on campus and through the UL wireless network.

Visual Histology is available via a link on the [Clinical and Anatomical Skills](#) site of the GEMS Website. To access this from off campus, put UL\ before your username when logging in.

Blue Histology is available via a link on the [Clinical and Anatomical Skills](#) site of the GEMS Website

Anatomy TV is available through the Library. A link to the program is on the [Clinical and Anatomical Skills](#) site.

Copies of **AP Revealed** are available to borrow from the short loan section in the library. AP Revealed can also be ordered through O'Mahony's bookshop.

Should you have any difficulties accessing any of the above, please contact medicalresources@ul.ie
