Programme Delivery

Programme design facilitates flexible, student friendly access to learning. Hence attendance at University is confined to 10 days with a balance of 18 days, delivered and supported through blended learning modalities on line.

Students will be based in practice throughout the programme. During the programme each participant will be under the guidance and supervision of a formally agreed medical practitioner who will act as a supervisor.

The supervisor provides student supervision and supports learning opportunities over the duration of the programme with specific requirements of 12 days (direct supervision) of the prescriptive process.

The prescribing programme facilitates a strong commitment to the integration of theory and practice.

Entry Requirements

1. Registration as nurse or midwife on the live register of Nursing and Midwifery Board of Ireland
2. Minimum of 3 years post-registration clinical experience (The required clinical practice experience must have been gained within the past 5 years with at least one year in the area in which prescribing is proposed and excludes time spent undertaking further post registration programmes)
3. Possession of competencies recognised at Level 8 of the NQAI framework
4. Demonstration of continuous professional development and the ability to study at level 8
5. Support from employer and complete Site Declaration form, signed by the Director of Nursing/Midwifery/Public Health
6. Nomination and confirmation of a designated medical practitioner mentor (completed site declaration form signed by the Medical practitioner/Mentor) who will provide the student with supervision support and opportunities including shadowing opportunities during the period of the programme.

The department offers the following level 9 postgraduate programmes

- MSc Nursing/Midwifery
- MSc Nursing (Dementia Care)
- MSc Nursing (Psychosocial Interventions in Mental Health Care)
- MSc Nursing (Perioperative Care)
- MSc Nursing (Rehabilitation of the Older Person)
