**Niamh  
Garry**

**Bachelor of Business Studies**

*"The program offered an integral co-operative education placement, important for jobs upon graduation."*

### **What was your first impression of UL?**

The atmosphere on campus is very positive, there is a real sense of a student community around. The facilities are top class.

### **Why did you choose the BBS in the University of Limerick, over other universities?**

The program offered an integral co-operative education placement which I think is very important when looking for a job upon graduation. The program is also well structured and organized. The opportunity to study abroad was also very attractive.

### **What Major and Minor did you choose and why?**

I chose Accounting and Finance as my major as I like working with numbers and it is very structured. I chose German as my minor as I like learning languages, and this opens the opportunity for me to work abroad.

### **Did you go on Erasmus? If so, where?**

I studied in Cologne, Germany.

### **What is your favourite memory from Erasmus?**

Living independently and meeting like-minded people was an amazing opportunity offered by Erasmus.

### **Where did you work for your co-operative education (Co-op)?**

I am working in Allianz Technology, based in Munich.

### **What did you learn from your co-op experience?**

Hands-on, practical work experience is a great learning opportunity and a chance to put the skills we learn in UL into practice in the real working world. It is also beneficial when searching for jobs upon graduation.

### **What was your best memory of UL?**

Sitting in the courtyard with students around, music playing and chatting.

**What career are you aiming to have once you graduate from the University of Limerick?**

A career in the financial sector of a multi-national corporation.
