## Message from the Associate Vice President Student Engagement

Dear Graduate,

On behalf of the entire University of Limerick community, I am delighted to extend congratulations to you on the wonderful achievement of your graduation. This is a magnificent day for you and everyone who supports you, and my wish is that you are immensely proud of your achievement.

Graduation is a testament to talent, skill, perseverance, determination and will. It represents sacrifices and achievements – regularly small, occasionally big – that culminate in your work being validated by the most stringent of academic processes as being worthy of a degree award. To graduate at any time is significant and calls for celebration. To graduate in 2020 against the backdrop of a global pandemic that has shaken the foundations of predictability in our society brings an added sense of achievement to what is already a wonderful success story – your story, first as a student, more recently a graduand, and from today, a graduate.

Your degree is of high value in how it represents much, but not all, of who you are as a person. Here at UL, we protect that value proudly and fiercely by ensuring that our governance of your academic journey reaches the highest international education standards. We stand firm against any dilution of those standards to ensure that you can use your degree confidently and proudly, knowing that it is a unquestionable statement of ability, academic integrity and educational attainment.

You now join a global community of more than 103,000 alumni of the University of Limerick – people who contribute to and make a difference to the lives of individuals, communities and nations on a daily basis. More than ever, we need that sense of community to be sustained and enhanced to help us address societal and global issues. The shared experience of being a graduate of UL can give rise to future experiences where you get to enhance your life and the lives of others.

Educational achievement lasts a lifetime and offers a robust platform for enhancing the world and the times we live in. I wish for you the very best of good fortune in your lives in the knowledge that when life does become uncertain, you will always be able to find comfort and sustenance from the achievement of your graduation.

Today, feel tall and proud of yourself, your work and your new lifelong identity as a graduate. Relish the memory of the best of times and acknowledge your resilience in the challenges. Tomorrow, do that all over again.

Professor Patrick Ryan
