

Summary report from meeting of Critical Incidences/Crisis Operations Team

14 February 2020

The purpose of this second meeting is to discuss any further updates in relation to the emerging Coronavirus epidemic in China and to consider developments or clinical incidences that have occurred since meeting in January.

The meeting dealt with the following considerations:

- Status check on the potential of a positive case of the virus among the student population.
- Communication with the campus community with institutional advice and national guidance on hygiene etc.
- An increase in cleaning throughout campus.
- A review of Department of Foreign Affairs travel advice in respect of current and future student and staff mobility.
- Technical scoping to be undertaken to prepare to move programmes online, if required.
