

## From Service Learning to Engaged Learning: European Innovations in Study Abroad

Dear Delegate,

Throughout the course of this two day Forum you will have formal presentations, interactive sessions and a site visit where you will hear experiences from our staff community partners and students involved in community engaged learning modules. As often happens at these kind of events, good ideas/discussion points do not always get an opportunity to be “aired” or “shared”!

We would really like if you could share your “on the spot” thoughts by way of a comment on any particular aspect of the UL Practicum which you have seen or heard? Is there something that you found really interesting which you would like to share with your colleagues back home? Did you engage in a conversation that that might inform /strengthen this work? Did you have an idea or come up with a question that you would like to ask?

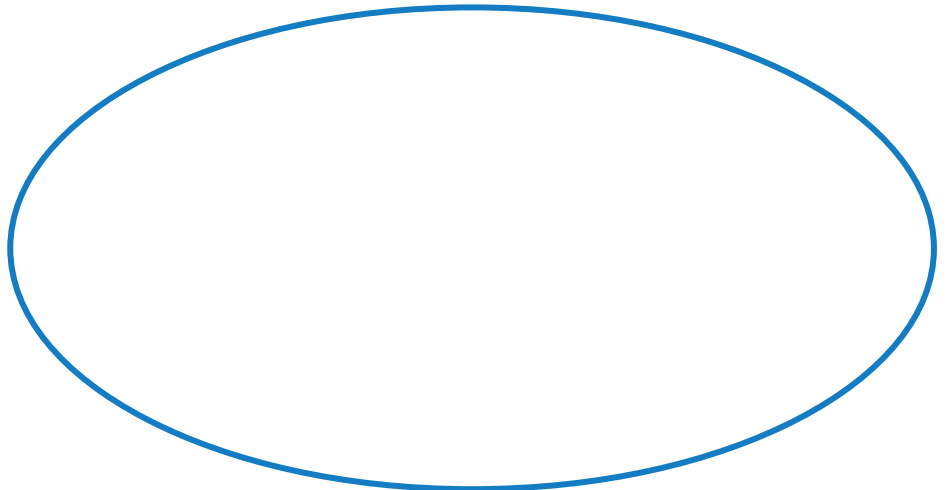

This information will contribute to the FAQ’s and discussion points for our Thematic Forum follow up.

Thank you
