Subject: Leuphana Housing Service for exchange students

Dear Partner,

I am writing to inform you that Leuphana University is currently re-organising its accommodation service for incoming exchange students. Over the past years, the University has been working with a non-profit association (Housing Lueneburg e.V.) in order to provide suitable accommodation and a comprehensive service for students from partner institutions. For various reasons, it has been decided to terminate this collaboration. The University aims to establish a new accommodation service as soon as possible. However, it is unlikely that a full service can be provided for the upcoming summer semester. We apologize for any inconvenience that may cause.

Please advise your students to consult our web pages for useful information on accommodation in Lueneburg as well as links to room vacancies in student dormitories and shared student apartments:

www.leuphana.de/en/services/io/incomings/exchange/prearrangements/accommodation.html

Students who have sent their application for admission have been already informed accordingly. They have also been informed that the International Office provides information and assistance in finding a place to stay in Lueneburg.

I will keep you informed about any further developments.

With kind regards,
Claudia Wölk
