

Dear all,

Following on one of the items in the notice on Monday, the **COVID-19 International Travel Request Form** is now available in the [Travel Folder](#) on the COVID-19 SharePoint site where there is also an information sheet about domestic travel.

Please note that international travel on University of Limerick business may not occur before 1 October 2021 for insurance reasons.

You only need to use the COVID-19 International Travel Request Form if you are travelling abroad. For more information about travel insurance, please go to the [Insurance](#) section of the Buildings and Estates website.

A reminder also that University of Limerick and the HSE's area vaccination teams will be running a walk-up COVID-19 vaccination clinic on campus for UL staff and students on Tuesday 28 and Wednesday 29 September from 10-7pm in EG O10, Ground Floor, Main Building. Photo ID is required.

No prior appointment or registration is required for any member of the UL community who wishes to avail of the opportunity to receive their first dose of the Pfizer vaccine. Any individuals due to receive their second Pfizer dose can also get this at the on-campus vaccination clinic as long as at least 21 days must have elapsed since their first dose.

Follow up on-campus vaccination clinics to administer the second dose of the Pfizer vaccine will be arranged in October. Any health information received by Mid-West vaccination staff will not be available to the University of Limerick.

Kind regards,

Eoin
