

Exercise is Medicine® Ireland Webinar Series

2pm-3pm (GMT), January 20th, 2021 via Zoom

“Exercise is Medicine – A Global Health Initiative”

**Dr. Mark Stoutenberg
Exercise is Medicine® Program Officer
Associate Professor & Department Chair, Kinesiology
Temple University, Philadelphia, PA, USA**

Dr. Mark Stoutenberg completed his PhD in Exercise Physiology (2008) and Master of Science in Public Health (2011) at the University of Miami. After serving as a faculty member in Department of Public Health in the University of Miami Miller School of Medicine, Dr. Stoutenberg recently moved to Philadelphia where he is now Department Chair of the Department of Kinesiology in the College of Public Health at Temple University. His research broadly focuses on examining clinic-community linkages and how we can optimally connect patients to evidence-based physical activity resources in community settings using an implementation science lens.

In addition to his scholarly work, Dr. Stoutenberg has served as a Program Officer for the Exercise is Medicine® initiative since 2013, primarily working to provide technical assistance and support to an EIM Global Network consisting of more than 35 active EIM National Centers around the world. Dr. Stoutenberg will discuss the ‘ABCs’ of the vision of the Exercise is Medicine® Initiative.
