EXCHANGE POSSIBILITIES

You can see all our exchange possibilities [HERE](#).

For more information on our new international Collaborative Engineering Project "Factory Futures" (from 2016 September 5th to 2017 January 13th), please visit the following page: www.factoryfutures.univ-lorraine.fr (available soon).

LANGUAGE LEVEL

We expect all our Exchange students to have minimum of B1-level in French for the beginning of September 2016.

For students accepted in a **Double-Degree program**, a B2-level in TOEIC (score 785 min) will be required at the end of the 4th year in order to integrate the 5th year. If this English level is not reached, the student will not be able to integrate the 5th year. That's why a B1-level in English is required for students applying for a Double-Degree program when integrating the 4th year of studies.

PRACTICAL INFORMATION

If you have any questions about our exchange programs, we invite you to have a look at our website: [INTERNATIONAL RELATIONS](#) as well as our [Exchange Student Guide](#).
