

MISSION STATEMENT

STUDY ABROAD

The Study Abroad Office at the University of Limerick is dedicated to providing the best service possible to all of our key stakeholders in the Study Abroad process: students, partner institutions, parents, faculty and administrative offices, both internal and external to UL. Our goal is to create a meaningful study environment that enables our students to engage with all aspects of their study abroad experience, both within and without the classroom. This will be achieved by facilitating and encouraging students to engage with the UL campus and wider community, experience the cultural and social activities on offer and be active participants in the academic and cultural learning processes.
