

Study Placements in Europe

1. Information on partner universities

a. Where to find information

Students should research the institutions with which UL has exchange agreements in the subject area of their degree programme.

Fact sheets and student reports

- On the IED website (www.ul.ie/international), go to Partner Universities and read the fact sheet and student reports from former Erasmus students.
- The student reports are password-protected. You will be prompted to enter the username and password the first time you open a report. The username is **student** and the password is **ULInternational2016**.

Partner University's website

- Find information on the partner university's website
- Universities provide websites in English for incoming students. The words to use for searching include "international", "exchange", "Erasmus", and "incoming students".

Department of Foreign Affairs

Consult the Department of Foreign Affairs website: <https://www.dfa.ie/>

Past UL students and incoming students

Contact returning UL students and incoming students – IED staff can provide contact email addresses

b. Some factors to consider

Courses on offer

- Check the host university's course catalogue for modules offered through the target language, at undergraduate level, during the semester of your study placement.
- Discuss possible module choices with UL Academic Coordinator.

Academic calendar/Semester dates

- Autumn: Semester start can range from mid-August to early October.
N.B. In most European universities, Autumn exams are held in January/February.
- Spring: Semester start can range from early January to March.

Cost of living

- Check the host university's fact sheet (<http://www.ul.ie/international/life-travel/partner-universities>)
- Type "cost of living" in the search box of host institution's website

Location

- Check location on a map and check for flights, trains, etc.
- Find information about the host city (population, location, etc.) and the university (number of students, faculties, campus layout, etc).

Accommodation

- It is the responsibility of the student to arrange accommodation at the host city.
- Accommodation booked through the host University is generally not “on campus”. Students often have to take public transport to get to the university.
- University residences in Europe tend to be of lower standard (and less expensive) than private accommodation.
- Finding accommodation in cities such as Paris, Copenhagen, Stockholm, Amsterdam, Southampton, can prove very difficult.

2. Application

- The application can be submitted at any time prior to the application deadline.
- Students must complete the Erasmus application form and return it to IED. The application form requires the student's signature and that of the Erasmus Academic Coordinator, to indicate approval of University selection.
- Deadlines: Last Friday in October for Autumn semester applications
 Last Friday in March for Spring semester applications

3. Eligibility

The ERASMUS academic placement may only be undertaken if the student meets the minimum academic requirements to progress to the next year. The required standard is a minimum cumulative QCA of 2.00 or greater, with no deficient grades (F, I, NG, N).

The Erasmus Academic Coordinator for each degree programme should be consulted for specific advice with regard to individual degree requirements (e.g. a QCA ≥ 2.6 is sometimes required). Students in the first or final year of their degree programme may not take part in the ERASMUS+ programme

4. Academic Recognition

The mobility programme for students is wholly integrated into the existing curricula with fully recognised academic placements based on the ECTS credit system.

- Duration: 1 semester (which can sometimes be extended to the full academic year)
- Students must take all exams at the host university and obtain the required ECTS credits per semester (24 or 30, depending on the requirements of the degree programme).
- Students must submit an Erasmus report (6 ECTS credits).
- The placement can be graded on a Pass/Fail basis (grades do not affect QCA) or can be quality graded (grades impact on QCA).
- Students do not pay tuition fees at host institution; they are registered as full-time student at UL and have the status of “exchange” student at host university.

5. Funding

- All students taking part in the Erasmus+ study programme are eligible to receive an Erasmus mobility grant (except Switzerland).
- The purpose of the grant is to assist with the cost of flights and initial moving costs. It is not a maintenance grant.
- Grant amount: between €220/€270 per month.
- The Erasmus mobility grant does not affect other grant entitlements such as SUSI or Back to Education grant, etc for compulsory students. ATTN: If you are a voluntary student, please contact our office for further information.
- To receive the mobility grant, students must return the Financial Contract and the Certificate of Arrival, showing official semester dates.
