Once you have looked through the list and selected courses corresponding to 30 credits over the four periods of the semester, you can fill in the course selection form that has been sent to you. You need to fill in your first choice for each period, followed by a second choice in case you are not accepted to your first. Make sure that if courses overlap between periods, for ex if you have chosen a 15 credits course in the first period, you do not need to make a choice for the second period as the course would run for two periods.
