Subject: Commission HRS4R - University of Limerick

Dear Caroline,

Many thanks for updating the webpage – this looks very clear now.

I am happy to say that the University of Limerick now fulfils all the requirements for the Commission acknowledgement and has the right to use the “HR Excellence in Research” logo. Congratulations!

In a separate email I will send you the logo (in different formats and together with some graphic guidelines). I will also send the information and the updated link which you provided below to our contractor in charge of the EURAXESS Portal so Limerick can be included in the list of acknowledged institutions on the [EURAXESS website](#). My colleague Stefania will then make sure that the logo is activated on the EURAXESS Jobs Portal.

If you're intending to do any publicity around the award I would very much like to see any press releases or any other associated news articles which this may generate.

Best wishes for a continued successful implementation of the Charter & Code principles at your institution.

Kind regards

Denis
