

UNIVERSITY OF
LIMERICK
OLSCOIL LUIMNIGH

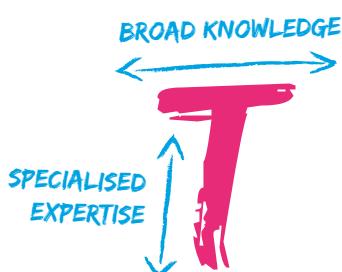

Master of Professional Practice

Build your master plan by stacking professional diplomas across a diverse range of disciplines such as AI and Technology, People and Performance, Quality and many more. Take the next step in your upskilling journey today.

Limitless Opportunities

Unlock a world of possibilities with our one-of-a-kind part time master's programme. Experience the freedom to choose from different disciplines, tailoring your education to your ambitions. Embrace the flexibility of a part-time schedule, allowing you to balance your studies with other commitments. And the best part? There's no need to write a thesis to achieve your academic goals. Embark on a transformative journey that empowers you to shape your future without limitations.

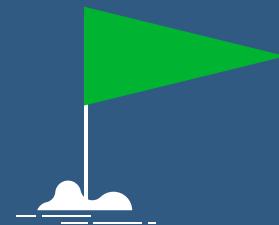

Make Way for the T-Shaped Professional

"T-shaped professionals" command a higher value in the workplace because they can solve problems with innovative solutions, lead teams, build relationships and strengthen their organisation. Expanding your expertise beyond your specialty will level up your skills and open new opportunities for your career journey.

Build Your Flexible Master Plan

Stack Your Way to Success

Start

30
Credits

You may be at the beginning of your journey to stacking awards to gain a Master in Professional Practice. Choose from any 30 Credit programme at the University of Limerick to start you on your way.

Continue

60
Credits

You may have gained 30 Credits in the last 5 years. Bank that award and select another part-time Professional Diploma of value and interest to gain another 30 Credits to continue your professional development journey.

Complete | 90
Credits

You may have earned 60 ECTS Credits in the past five years, either from the University of Limerick or elsewhere, and now wish to achieve a Master's award by completing the remaining 30 Credits. If you are at this point, you can get going this Autumn with the following eligible programmes we offer for you to choose from.

Eligible programmes to complete the Master of Professional Practice in Autumn 2023

Artificial Intelligence for Computer Vision	Aviation Leasing and Finance	Community Engagement
Healthcare Product and Service Development	Intermediary Studies	Marketing Management
Management Practice	Natural Language Processing	Project Management
Quality Management, Lean Systems	Quality Management, Six Sigma	Strategic Leadership
