

How to add a Panopto recording to your content page on Brightspace using the **Insert Stuff** option.

There are two options available when adding Panopto recordings to your Content page -

- A. Using the Insert Stuff and Panopto option.
- B. Using the Insert Stuff and Enter Embed Code option.

A. The Insert Stuff and Panopto Option

- Open your module.
- Select the **Content tab**.
- Select the Unit.
- Locate the HTML page where you want to display your recording.
- Select the **Options** button (three dots on top corner).
- Select **Edit** from the drop-down.

B. Using the Insert Stuff and Embed Code option. (This option is marginally longer than option A)

- Open your module.
- Select **Course Tools > Panopto**.
- Scroll over the recording you require until you see the options available.
- Select the **Share** option.

Figure 8 The Share button

- Click the **Embed Code** button.
- **Copy the Embed Code**. The embedded player will be inserted into the page.
- Your embedded video will appear on your module.
- **X** the window.
