Blended Intensive Programme
'Environmental and Sustainability Education'

Blended Intensive Programmes (BIPs) offer teachers and students new and creative opportunities for international educational cooperation and participation in jointly designed courses. The international exchange is supported by the Erasmus+ programme. Participants receive standard grants from their home university (e.g. daily allowances and/or allowances for travel expenses).

Course "Environmental and Sustainability Education" (6 ECTS) offered by the University of Vechta (Germany) – in cooperation with Masaryk University (Czech Republic), Karlstad University (Sweden) and University of Klagenfurt (Austria)

Who can apply?
Bachelor and Master students of all disciplines, interested in Environmental and Sustainability Education (ESE)

What benefits do I gain from it?
Learning about theories and concepts of ESE
Learning about international perspectives of ESE
Experiencing practical methods
Getting to know international students
Dialogue and collaboration with top international ESE experts

Structure:

- 21 April 2027, 3:30-6:00 pm, Online Session (getting to know each other, sustainable development, planetary boundaries, SDGs)
- 12 May 2027, 3:30-6:00 pm, Online Session (history / development of ESE, approaches and aims of ESE)
- **Summer School, 18-22 May 2027 at the University of Vechta, Germany (team-building activities, international case studies, ESE pedagogy, ESE methods, excursions)**
- 9 June 2027, 3:30-6:00 pm, Online Session (reflection, concluding discussion)
