Programme Overview

The aim of the 2 year Master of Science in Nursing (Older Person) programme is to provide registered nurses with the opportunity to enhance previously acquired professional education and develop critical inquiry, knowledge and skills, attributes and competencies in preparation for developing roles within the older person nursing. The programme is designed to facilitate learning in assessment and therapeutic nursing interventions for the older person within the context of gerontology care.

The programme will develop professional qualities and a high level of competence in the promotion of excellence and current best practice in the delivery, co-ordination and appraisal of advancing practice in older person nursing.

Advantages of Studying in UL

- 13 Days attendance only in year 1
- Supervised Research Project in year 2
- Blended Learning to Support Student Learning
- Variety of Assessment Strategies to suit adult learners
- Excellent library facilities
- Dedicated student supports (Writing Centre, Student Advisor System, Blended Learning)
