

MASTER OF SCIENCE IN NURSING (PSYCHOSOCIAL INTERVENTIONS IN MENTAL HEALTH CARE)

Programme Overview

The aim of the Master of Science in Nursing (Psychosocial Interventions in Mental Health Care) is to provide registered nurses with the opportunity to develop and enhance their knowledge and skills to implement evidence-based psychosocial interventions across a range of mental health settings.

This programme is specifically designed to develop nurses' skills and knowledge to facilitate assessment and evidence-based psychosocial interventions that support and promote a recovery model of care.

Entry Requirements

1. A registered nurse on the current register of the Nursing and Midwifery Board of Ireland
2. Be engaged in practice as a registered nurse for at least one year
3. Students would normally possess a primary degree (Minimum 2.2) or show evidence of Recognised Prior Learning (RPL) as outlined in the RPL policy of the University of Limerick and Department of Nursing and Midwifery
4. Students are required to be working in a practice setting for the duration of the programme
5. Applicants whose first language is not English must provide evidence of either prior successful completion of a degree qualification taught through the medium of English or meet criteria identified in the English Language qualifications set by the University of Limerick
6. Garda clearance required
