

## DEPARTMENT OF NURSING & MIDWIFERY

# MASTER OF SCIENCE IN NURSING (NURSING)

## Programme Overview

The overall aim of the Master of Science in Nursing is to provide registered nurses with the opportunity to develop and enhance their knowledge, skills and attitudes necessary to care for patients/clients to the highest professional standards across the health care continuum.

The programme offers a range of modules grounded in a body of evidence-based knowledge that promotes excellence in nursing practice to allow the student meet their individual needs. An essential element of the programme is the application of the specific modules to the students clinical and practice environment. Successful completion of the programme will provide students with the academic qualifications necessary for enhancing their professional role in the Healthcare environment.

## Entry Requirements

- A registered nurse/ midwife on the current register of the Nursing and Midwifery Board of Ireland
- Students would normally possess a primary degree (Minimum 2.2) or show evidence of Recognised Prior Learning (RPL) as outlined in the RPL policy of the University and Department of Nursing and Midwifery
- Applicants whose first language is not English must provide evidence of either prior successful completion of a degree qualification taught through the medium of English or meet criteria identified in the English Language qualifications set by the University of Limerick
- Students are recommended to take the specialist module in Semester 1 if choosing a specialist module in Semester 2
- Garda clearance may be required
