WHAT IS IT?

The MA Community Research+ programme is unique in providing students with real time, real-life on-the-job research training in UL Engage-supported community/university collaborative projects.

This innovative cross-disciplinary and practice based graduate programme comprises a common 'engaged research and practice' core augmented by disciplinary specific academic training and research.

WHO IS IT FOR?

The MA Community Research+ is designed to meet the needs of professionals and practitioners in community based settings in the public, semi-state and not-for-profit sector.

COMMUNITY EXPERIENCE

This programme facilitates student placements in local community / university projects, providing the necessary training and facilitation between students and community partners to enable them to effectively identify the tasks and work packages that students can reasonably carry out in order to address identified community needs.

ENTRY REQUIREMENTS

Applicants must have a first or second class level 8 honours degree (NFQ or other internationally recognised equivalent) in a relevant or appropriate subject, or equivalent prior learning that is recognised by the University as meeting this requirement.

Applicants must also satisfy the English language requirements of the university.

The University reserves the right to short-list and interview applicants as deemed necessary.
