

Module Satisfaction Survey, autumn 2020 Summary of institutional-level findings

Introduction

In accordance with published policy and procedures, the University of Limerick regularly undertakes a module satisfaction survey (MSS) of students undertaking UL modules. In November 2020, MSS requests were distributed to students who were undertaking one or more UL modules that semester. This represented approximately 68,000 individual requests to over 15,000 students taking one or more of approximately 1,220 current modules on offer. Some 24,005 responses were received from 5,682 students, which represents an overall response rate of 36%.

Reporting structure:

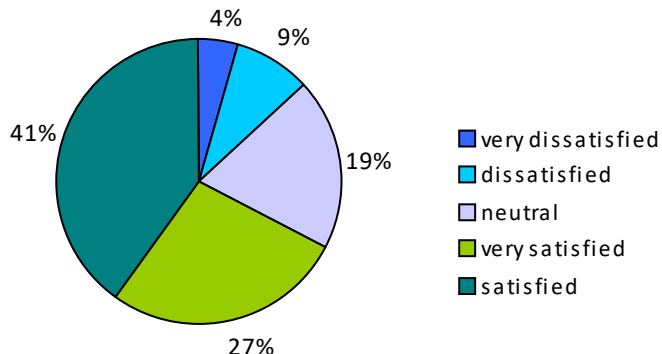

- Individual module reports are available to the lecturer listed as being responsible for the module.
- Heads of department will receive a report detailing all departmental modules (copied to the faculty dean) within 1 week of survey closure.
- Executive Committee Quality Committee will receive a report summarising departmental and faculty-level aggregate data within a month of survey closure.
- Publicly available report providing a summary of institutional-level survey findings (this report).

Institutional-level summary findings

In the case of MSS question 1 (“All things considered, how do you feel about this module?”) 68% of respondents indicated satisfaction, 19% recorded a neutral response and 13% registered dissatisfaction.

The chart below summarises the institutional average and values recorded, on a scale of 1 to 5, for each question (1 = very dissatisfied, 5 = very satisfied).

Q1 - All things considered, how do you feel about this module?

All things considered, how do you feel about each of the following aspects of this module?
