

Module Catalogue

The following sections give an overview on the available modules. In the first column, you can find the long name and the abbreviation of the modules. The number of ECTS points can be found in column 2 and column 3 specifies the number of semesters of the courses. In the last column, there are additional hints on the type of courses, if it is graded and if the module is split into submodules. F. e. "Educational Psychology" (06-PSY-PÄPSY) comprises two different modules that can be attended independently from each other.

Finding the Courses in the Course Catalogue

The course catalogue is available online via SB@Home. Usually the courses are made public in the middle of the semester for the following semester (e. g. at the beginning of June for the following winter term). Please visit <https://www-sbhome1.zv.uni-wuerzburg.de/> to retrieve the courses. You do not need to log in the system. For this, you need a university account, which you receive after coming to Würzburg.

Step 1

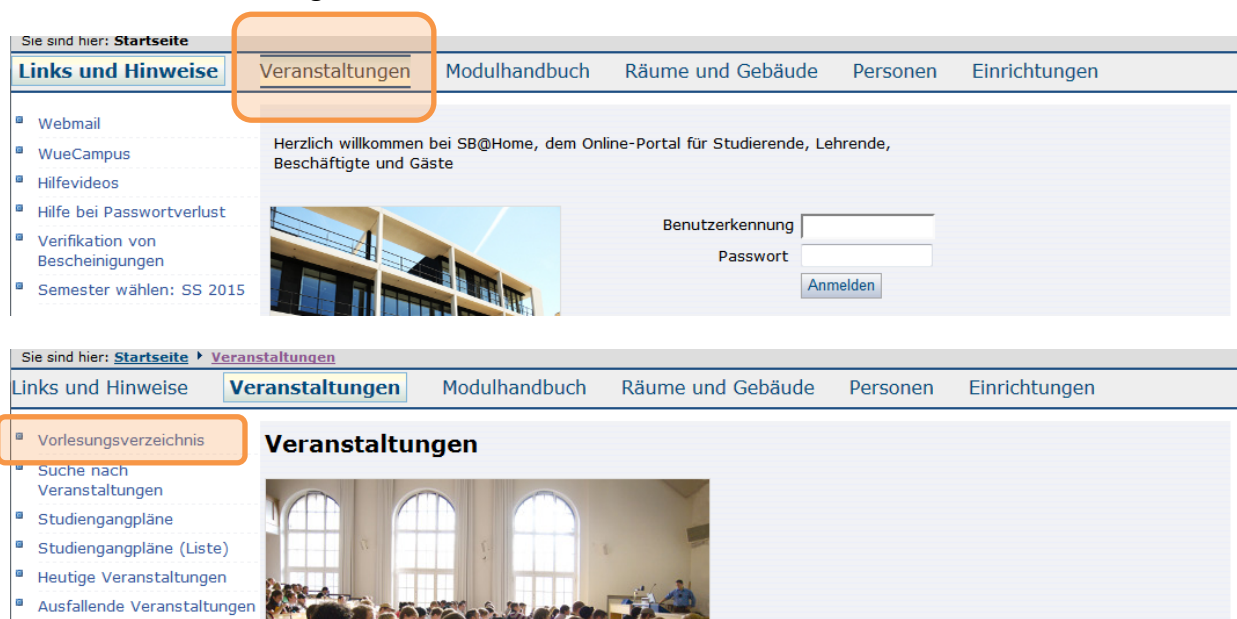

Please choose the correct semester in the course catalogue. You can choose between winter term (beginning in October) and summer term (beginning in April).

The screenshot shows the SB@Home website interface. At the top, there is a navigation bar with the university logo and links for LOGIN, KONTAKT, IMPRESSUM UND DATENSCHUTZERKLÄRUNG, and SITEMAP. A red banner indicates a maintenance day: "Wartungsdonnerstag: von 15 bis etwa 17 Uhr ist SB@Home nicht erreichbar." Below this, a dropdown menu for "Semester wählen: SS 2015" is open, showing a list of semesters from Wintersemester 2008/09 to Sommersemester 2015. The main content area includes a welcome message, a login form with fields for "Benutzerkennung" and "Passwort", and an "Anmelden" button. A sidebar on the left contains a "Links und Hinweise" section with various utility links.

Step 2

Enter the course catalogue

The screenshot shows the SB@Home website interface with the "Veranstaltungen" (Courses) section selected. The navigation bar at the top includes "Links und Hinweise", "Veranstaltungen", "Modulhandbuch", "Räume und Gebäude", "Personen", and "Einrichtungen". The "Veranstaltungen" section is highlighted in the sidebar. The main content area features a welcome message, a login form, and a large image of a lecture hall. The sidebar on the left contains a "Vorlesungsverzeichnis" (Course Catalogue) section with various links for searching and viewing course listings.

Step 3

Navigate to the courses in psychology “Fakultät für Humanwissenschaften“ -> “Psychology“ and choose the degree Bachelor or Master. The courses that are in English language, or where you can contribute in English are additionally listed under “International Study Programme” (under development):

After clicking on the degree, you get the list of modules and the according courses, f. e. for the Bachelor degree:

Step 4

We are almost there. Click on the modules you are interested in and you either get the submodules or the concrete courses. Navigate through the courses in order to plan your stay. Most courses are held each semester, but the times and persons may vary. Please do not forget to come to Würzburg in time in order to be able to register for the courses you want.
