

Host: **Ed Devane**

www.soniphorm.com

Times: Wednesday Sept 26th 2018 @ 15.00-16.30

Venue: CSG-01

Ed Devane will give a live demo of some works in progress and discuss the processes and aims of his creative output. Works in progress include a spring-string exciter instrument, SoundSniffer preamp, and a portable synth/amplifier made for large scale musical performances.

Bio

Ed Devane is an instrument designer, sound artist and educator. Starting his creative career as an electronic music producer making experimental techno and electro, Devane's work has grown to include instrument building using digital fabrication, interactive art installation and workshop facilitation. Current areas of interest are audience participation, spectralism meets moving sound sources, and using design to deliver high quality educational experiences. Ed currently works as teaching assistant to digital media students.
